

Bb Learn 9.1 Template Variables

Used like ANGEL Tokens

Information	Variable	Example
User's* full name	@X@user.full_name@X@	John Smith
User's* ID	@X@user.id@X@	Instructor: 850_jsmith Student: 50_900012345
Course name	@X@course.course_name@X@	ABCD1101 Introduction to Accounting

**User* refers to whoever is logged in, so instructors will see their own name, and students will see theirs.

For example, this announcement will show each student his or her *own* name:

Welcome to the class, @X@user.full_name@X@!

John Smith will see "Welcome to the class, John Smith!", Suzie Jones will see "Welcome to the class, Suzie Jones!" and so on.
